# Ruirui Yang

yangruirui1115@163.com | yangrachel001@gmail.com

## EDUCATION

**Peking University, Beijing, China** Sep. 2023 – Jun. 2026

M.P.H. in Health Policy and Management | Master's advisor: Prof. Hongqiao Fu

**Capital University of Economics and Business, Beijing, China** Sep. 2019 – Jun. 2023

B.A. in Accounting; B.S. in Statistics

## PUBLICATIONS

Chen, T., Sun, X., Tsuei, S., **Yang, R.**, Yip, W., & Fu, H. (2025). Care for end-stage kidney disease in China: progress, challenges, and recommendations. *The Lancet Regional Health – Western Pacific*, 54, 101268. https://doi.org/10.1016/j.lanwpc.2024.101268

## CONFERENCE PRESENTATIONS

Yang, R. (2026, March 20–24). When digital reform meets professional autonomy: Physicians' online practices [Oral presentation]. American Society for Public Administration 2026 Conference, Hollywood, CA, United States.

Yang, R. (2024, October 24–26). The role of long-term care insurance in supporting female caregivers who become disabled patients [Oral presentation]. Women's Health Conference 2024, Singapore.

## RESEARCH EXPERIENCE

**Sauder School of Business, University of British Columbia**

Research Assistant | Prof. Mingduo Zhao Jul. 2026 – Present

- Refined and tested an online experiment on consumer decisions involving AI, checking treatment assignment, task sequence, behavioral recording, and survey links.
- Revised data collection and coding procedures for an online field experiment on AI and hiring; collected study data and coded outcomes.

**MIT Sloan School of Management, Massachusetts Institute of Technology**

Research Assistant | Prof. Jackson Lu Jan. 2026 – Present

- Contributed to a rating framework and codebook for evaluating AI-generated responses; helped refine scoring rules to improve inter-rater reliability, completed multiple rounds of coding, and helped train other research assistants.
- Conducted an independent analysis of AI evaluation outcomes and documented the methods and findings in a research report.
- Wrote Python scripts to collect, clean, and validate 10,000+ articles from top journals across multiple disciplines, supporting an AI-assisted research tool.
- Independently developed a Python pipeline to scrape, clean, and validate CEO background data from LinkedIn and Wikipedia, using cross-source comparisons to verify and extend an existing board database.
- Provided substantive comments and language revisions on manuscripts before submission and after editorial review, verifying references and checking consistency across the main text, tables, figures, and supplementary materials. Acknowledged in AI and entrepreneurship (Strategic Entrepreneurship Journal; 100+ draft versions), social class and negotiation (PNAS), and the UK bamboo ceiling (Personnel Psychology).

**Guanghua School of Management, Peking University**

Research Assistant, Department of Accounting | Prof. Qian Huang May 2026 – Jul. 2026

- Independently built a Python program to extract carbon-reduction disclosures from 20,000+ Chinese A-share annual reports (2022–2025) and construct a firm-year panel.
- Automated report downloads, optical character recognition, and extraction from text, tables, and checkboxes; defined coding rules for missing or ambiguous disclosures and policy exemptions.
- Wrote a replication guide documenting coding decisions and exceptions so the data could be updated consistently across years.

**Institute of Population and Labor Economics, Chinese Academy of Social Sciences**
Research Assistant | Prof. Duo Xu — Jan. 2025 – May 2026

- Studied how hospital-run telemedicine platforms affect physicians' participation and service provision on third-party platforms.
- Hand-collected platform launch dates for 214 public hospitals and linked them to 420,000+ records of physicians' online activity (2019–2024).
- Estimated staggered difference-in-differences models and examined variation by physician rank and baseline platform activity; used semi-structured interviews to interpret the findings.

**CUHK Business School, The Chinese University of Hong Kong**
Research Assistant | Prof. Leo Huiyao Liao and Prof. Nan Guo — Dec. 2024 – May 2025

- Designed a targeted social-media recruitment strategy and enrolled 39 participants for a qualitative study of gender norms and women's workplace experiences.
- Conducted semi-structured interviews and developed the survey-to-interview workflow, questionnaire refinement, transcription, and thematic coding in NVivo.

**Beijing Health Big Data & Policy Research Center**
Research Assistant — Jul. 2024 – Dec. 2024

- Traced patient referrals between cities using 2013–2023 inpatient records and mapped patient flows across Beijing, Tianjin, and Hebei in ArcGIS.
- Used difference-in-differences models to study referral changes after a regional medical center opened; prepared maps and policy briefs for municipal decision-makers.

## TEACHING EXPERIENCE

**Peking University, Graduate Teaching Assistant** — 2024
Research Progress in Health Economics | Instructor: Prof. Hongqiao Fu

## HONORS AND AWARDS

Outstanding Research Award, Peking University — 2025
Third Prize, May Fourth Youth Science Award, Peking University — 2024
Outstanding Graduate of Beijing (Top 5%) — 2023
Silver Award, Challenge Cup Entrepreneurship Competition — 2022

## SKILLS

Python, Stata, R, NVivo, ArcGIS.

## INTERNSHIP EXPERIENCE

**Ernst & Young, Financial Services Office** — Jan. 2022 – Mar. 2022
Audit Intern; verified 300+ bank confirmation letters and supported financial services audits.

**JD.com Group, Digital Efficiency Department** — Jul. 2021 – Sep. 2021
Product Manager Intern; coordinated integration and testing of finance-related products.

**China Index Research Institute, Big Data Center** — Dec. 2020 – Feb. 2021
Intern; maintained 300,000+ tenant records in Excel and the CREIS database.

## LEADERSHIP AND SERVICE

**Peking University Bowling Association** — Sep. 2025 – Jun. 2026
President; organized campus events and coordinated university team activities.

**Carbon Reduction Group** — Nov. 2021 – Jan. 2022
Student Leader; organized campus sustainability activities and a social-media campaign.
